Harare,Zimbabwe | +263789727791 | <u>mutsambiwalesley@gmail.com</u> | <u>LinkedIn</u> | <u>Github</u>

Summary

Aspiring Full-Stack Developer pursuing a B.Sc. in Computer Science with hands-on experience in building scalable, user-friendly applications. Proficient in Python, JavaScript, and modern web frameworks such as React, with a strong foundation in data structures, algorithms, and Agile methodologies. Demonstrated proficiency through collaborative projects and a passion for continuous learning in emerging technologies.

Education

Africa University   **Aug 2024 - Jun 2028**
Bachelor of Science Honours, Computer Science   *Mutare,Zimbabwe*

- **GPA:** 3.6
- **Achievements:** Dean's list for Summer 2025, Fintech Hackathon: Participated in the on-campus Fintech Hackathon, collaborating with a team to design and build a functional prototype of a secure peer-to-peer payment application.
- **Coursework:** Professional Development: Technical Communication, Introduction to Intellectual Property, Introduction to Critical Thinking, Core Computer Science Coursework: Object-Oriented Programming (OOP),Introduction to Programming,Theory of Computing, Mathematical & Hardware Foundations:Calculus,Digital Electronics

Projects

Kwikifund   **May 2025 - Present**
Africa University   *Mutare,Zimbabwe*

- KwikFund Africa is a mobile-first financing platform using AI credit scoring, USSD, and digital wallets to provide microloans, BNPL, and financial tools to underserved users across Africa.
- KwikFund-Africa-Credit-Beyond-Banks.pptx

AI-Powered Email and Job Automation Agent   **Aug 2025 - Present**
                                                                                                                                                 Mutare,Zimbabwe

- Email Prioritization: An AI model analyzes incoming emails, prioritizing them based on urgency (e.g., fee payments, job offers) and sending high-priority alerts directly to my WhatsApp via API integration.
- Intelligent Web Scraping: Automatically searches popular job boards and tech company career pages for relevant job openings.
- Automated Application Process: Composes and sends personalized emails to new job postings, ensuring timely applications and increasing the chances of being among the first candidates.

Smart dining   **Sep 2025 - Present**
Africa University   *Mutare, Africa University*

- Developed a mobile app that enabled students to place online orders and receive a digital meal ticket, streamlining the university's dining experience.
- Overcame significant challenges in establishing a robust database and developing the backend logic to handle order processing efficiently.
- * Implemented a key feature allowing users to order in advance, which successfully reduced wait times during peak dining hours and improved overall student satisfaction.

Skills

- **Programming Languages**: Programming Languages, Python, JavaScript, TypeScript, AI/Machine learning, NLP
- **Web Technologies**: Web Development Frameworks, React Native, JavaScript Frameworks, JavaScript Libraries, Node.js, Bootstrap (Framework), Mobile Application Development, REST APIs, Back-End Web Development, Web Scraping
- **Databases**: MongoDB, SQL
- **Tools & Methodologies**: GitHub, Git, Agile, Postman API, Collaborative Coding
- **Additional Skills**: Volunteer Leadership, Computer Science Education, Active Learning, Certified Information Security Manager (CISM), FinTech, Cybersecurity, Passion For Technology, Algorithms

Certifications

- **ISC2 Candidate:**Engaged in professional development and training through ISC2, demonstrating a commitment to pursuing a career in cybersecurity."
